

Mr. Greg Reimer
VP- Transmission and Distribution BC Hydro – Meter Choices
PO Box 9530 Stn. Terminal Vancouver, BC V6B 4G8

greg.reimer@bchydro.com

Dear Mr. Reimer,

Date mailed:

I am writing in response to your letter informing me that my analog meter's Measurement Canada seal has expired, and that within the coming weeks someone will attempt to exchange my meter.

As I have previously notified you in writing, I continue to refuse a smart meter, with or without the transmitter turned off. As I have accepted your opt out choice of an analog meter, I will only accept the exchange of analog for analog, and conditions for any exchange I may agree to are listed below:

Prior to any agreement to exchange the current meter, kindly:

- . 1) Provide me with a **photocopy of the Measurements Canada record** with the actual seal expiry date for my exact analog;
- . 2) Provide me with the **identification number of the meter for which you state the seal is expiring** so that I can cross reference same with the identification number on the face of my actual meter and the meter number listed on my billing statement;
- . 3) Provide me with the **model name and number of the analog meter you wish to install, and its certification (expiry) date, and confirm in writing that it contains no chip, transmitter or antenna of any sort**
- . 4) Provide the time and date the installer will be arriving *in writing or by direct discussion with me personally* if it is, in fact, accurate that my meter seal has expired. **No failed installation fee will be payable unless an appointment is made in advance for a mutually agreeable date and time.**
- . 5) I will only allow a licensed electrician who can provide me with valid confirmation of liability insurance to handle my current analog meter and base on the house for any reason. I am requiring this on the grounds that under BC Hydro Tariff Section 97, "Liability", BC Hydro has stated it has no responsibility for any harm or injury done by its employees or agents, whether done through negligence or willful misconduct. **Being aware of this risk to my home and family, I cannot allow the risk of an unqualified, uninsured person tampering with my property and potentially risking my and my family's safety.**

- . 6) Finally, provide me with written assurance that no attempt to install a smart meter, with or without transmitters, will occur because
- . a) **I have chosen to opt out of the smart meter program and have notified you of same**, and
- . b) I am a member of the **Class Action Suit against BC Hydro in the Supreme Court of British Columbia** and it is unconscionable that I be harassed or interfered with while this legal action is ongoing.

Please note that if you charge me a failed installation fee after receipt of this letter, without complying with the conditions set forth herein, I reserve the right to seek legal action against you.

Sincerely,
