

Dear Journalists,

## **The Story North America's News Media Will Not Touch!**

In 1961, then U.S. President Dwight D. Eisenhower warned the American people to be on guard against an emerging Military-Industrial Complex (MIC) saying that: "We must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists, and will persist. We must never let the weight of this combination endanger our liberties or democratic processes ." [1]

Tragically for the Western world - for all mankind - even President Eisenhower's worst possible fears were miniscule compared to today's reality - which could not happen had North America's mainstream news media not decided to remain silent for these past 40 years! [2] [3] [4]

Today, every person and living thing on planet earth is an unsuspecting and utterly defenseless victim of what history will eventually say was "Man's Worst-Ever Genocide!" Yet that which threatens us all cannot be seen, touched, tasted, smelled or heard - even though it is everywhere! And no person nor any living thing can escape it! Militaries rightfully consider 'it' to be the perfect weapon! It leaves no evidence behind! Co-incidentally, the industrial complex also elected to embrace and exploit this same recondite technology, such that they have now transformed their entire product lines - and our lives - within just 40 years! Shockingly, Western governments have stood by and allowed this to happen - without ever insisting that new products must first undergo independent 'safety' testing to prove that they are 'safe' to be used by, on and around people of all ages, of all sizes and of all levels of wellness, continuously - 24 hours a day, seven days a week, in perpetuity! On the contrary, not a single Western government has lifted a finger to impede industry's relentless drive to design, manufacture and introduce an ever-expanding galaxy of products that have now revolutionized our lives - and, in so doing, harmed literally millions of people and every form of life on the planet! History knows that not a single major Western country even had the decency to impose the 'Precautionary Principle"! Yet many non-Western countries have done so! (See Attachment One.)

The invisible environmental hazard that increasingly threatens us all - and every living creature on earth - is the "low-level, pulsed, NON-thermal radio / microwave frequency radiation" which is emitted by every cell phone, cell phone tower, cordless phone, tablet and laptop computer, TV game console, Wi-Fi router, Bluetooth device, GPS, remote control unit, etc., and every 'Smart' meter and 'Smart' appliance - many of which cannot be turned off, such as cell phone towers, cordless phones, Bluetooth, Wi-Fi routers,

Wi-Fi and Wi-MAX zones, GPS, the thousands of military, commercial and scientific satellites circling the globe, AM and FM radio towers, TV towers, etc.!

In 1976, a previously 'Confidential' U.S. military document was declassified and released to the public. It states, in part: "If the more advanced nations of the West are strict in the enforcement of stringent exposure standards, there could be unfavorable effects on industrial output and military functions." It also states: "Should subsequent research result in adoption of the Soviet standard, industries whose practices are based on less stringent safety regulations, could be required to make costly modifications in order to protect workers. Recognition of (the Soviet standard) could also limit the applications of new electronic technology by making the commercial application of some products unattractive because of increased costs imposed by the need for additional safety standards." [5]

Important Facts - East vs West:

- 1) Russia and Eastern European countries have known since at least the 1950s that "NON-thermal" radiation, especially when "pulsed" (the kind emitted by today's consumer wireless products, 'Smart' meters, 'Smart' appliances, etc.), can harm people and all forms of life - including plants and trees! (Discussed at length in Attachment One)
- 2) No Western country and no international 'regulatory agency' (See Attachment One) recognizes or will admit that NON-thermal radiation can harm people or other forms of life! As one, they recognize only THERMAL radiation i.e., that which heats the skin!
- 3) Russia's 'exposure limits' - which are intended to provide protection for the public for exposure periods of "three hours+" have always been 100 times lower/safer than those of US-led countries. [6]
- 4) China, Italy, most Eastern European countries, Switzerland and Toronto's Board of Health all have established exposure limits 100 times lower/safer than those of US-led countries (which includes Canada)!
- 5) Public pressure in 2015 finally forced Health Canada to 'improve' its exposure limits - which still stipulate only six minutes exposure! - such that it is now just 66 times lower than that of the US and other US-led countries.
- 6) Every person and all living things in all countries of the world are now continuously exposed to this man-made pulsed NON-thermal radiation 24/7/365 in perpetuity!
- 7) The BioInitiative 2007 Report called for all governments to reduce/lower their radiation exposure limits some 10,000 times! [7]

Today's environmental disaster - and genocide - is happening simply because Western governments and the two industry-friendly international 'regulatory agencies' refuse to admit that NON-thermal radiation can harm humans and all forms of life! Were they to do so, not one of today's lucrative wireless consumer products or 'Smart' meters and 'Smart' appliances would be

permitted - in any country on earth! Non-industry scientists have tried for decades to warn national governments about the hazards of this radiation, but Western governments remain deaf. Non-industry scientists have also warned governments that there is a parallel between the growing epidemics of diseases, such as autism, leukemia and many forms of cancers, Alzheimer's, Parkinson's, ALS and other diseases of the brain, central nervous system and immune system and the explosion of wireless products in our environment! Again, Western governments choose not to listen! From mankind's perspective, it is an enormous tragedy that cancers and other major diseases take anywhere from 10 to 30 years - or more - to manifest themselves. The final tally of today's genocide will not be known for decades to come! Sadly, non-industry scientists today know that future generations will impact hugely on the final tally - for they will be the final victims of today's unparalleled corruption and greed.

As a former Electronic Warfare officer (see BIO in Attachment One), it is inconceivable to me that so-called "democratic" governments can permit - and have for decades - the now incredibly powerful and influential wireless and telecom industry to utilize the same lethal radio frequencies, the same NON-thermal radiation, the same pulsed modulation - oftentimes emitting much lower power than did the Russians who irradiated the U.S. Embassy in Moscow for some 23 years (1953-1976)! Yet two consecutive US ambassadors died from cancer, a third developed leukemia-like symptoms from which he too eventually died. At least 16 women developed cancer, and most other Embassy staff came down with one or more illnesses. History also shows that the U.S. Government knew of this - and observed it in silence for 15 years - before telling its own Embassy staff! History also knows that the U.S. Embassy was irradiated for just 6-8 hours a day, for only five days a week! But today, every person and every living thing is being irradiated 24 hours a day for each and every day of their life! [8] [9]

There has never been a 'bigger' more important story than this. Unless it is stopped, it will become planet earth's worst environmental disaster and mankind's worst-ever genocide! I beg you to do your utmost to inform the population about what is happening to them, to all living things, to our planet - and to each and every investigative journalist in the world!  
Sincerely,

James G. ("Jerry") Flynn
